

# Under The Sun

Glenn Travis

Every single time the lights go dark  
I only see the light when you're not far  
But when you're here  
It makes all the difference  
When you're near  
Oh I see so much clearer

She's like fire  
So bright burning up the whole entire outside  
And inside my heart  
Street lights won't give me fire  
Just keep me under the Sun  
Keep me under the Sun

When you're in my arms I feel complete  
'Cause there is no other place I'd rather be  
And when you're gone  
I feel like there is no one is that wrong?  
That you are the only one I want  
And there's no one as pretty as you  
You're so beautiful to me  
Girl you don't have to worry about the others  
'Cause then they ask me why I love you

I Said Oh  
She's like fire  
So bright burning up the whole entire outside  
And inside my heart  
Street lights won't give me fire  
Just keep me under the Sun  
Keep me under the Sun

She's like fire  
So bright burning up the whole entire outside  
And inside my heart  
Street lights won't give me fire  
Just keep me under the Sun  
Keep me under the Sun  
Under the sun  
Keep me under the sun
