

Virtual Reality

Glenn Travis

Man this shit gon' go #1

I know

When they lose like they lose control

Baby I'm just tryna touch yo soul

I said enough cause I need

I let her breathe out in between her motions you know

My heart getting tired I'm emotional baby

So shoot me, put me on

Ain't nothing average just sensational

Feels like I'm flying in outer space with ya

Well I don't row, my pier on the moan

Sorry I feel like we being

Virtual reality, reality

When you're here with me

It feel like

Virtual reality, reality

When you're here with me

It feel like

I might just have to open

Pandora's box and closing

Might have to slay a couple dragons on the way

For this test I was chosen, noble steed golden

Fire in my eyes but I'm still gonna rescue you

Princess, risk my death for you

I really love that trash on you

It soothes me, it turns me on

Ain't nothing average just sensational

When we make it back I got something for you

Yes I know, when we get in love

Sorry I feel like we being

Virtual reality, reality

When you're here with me

It feel like

Virtual reality, reality

When you're here with me

It feel like

Virtual reality, reality

When you're here with me

It feel like

Virtual reality, reality

When you're here with me

It feel like

Virtual reality, reality

When you're here with me

It feel like

Virtual reality, reality

When you're here with me

It feel like
