

# When I'm With You

Glenn Travis

This kind of thing just drives me crazy  
Ain't nothin' make me feel like  
When I'm with you (with you, with you) oh yeah  
When I'm with you (with you, with you)  
(With you)

I knew (I knew, ay)  
Soon as I saw you  
That my life would change  
My life would change  
It took me right away  
What was a young man supposed to do  
Girl you had me so confused

I used to want these girls  
Now all I want is you  
I don't see no one else  
Closer than my view  
Can't help myself  
Let's go to my room  
You can feel my love  
Girl it's all for you

This kind of thing just drives me crazy  
Ain't nothin' make me feel like  
When I'm with you (with you, with you) oh yeah  
When I'm with you (with you, with you) ooh yeah

Oh Lord (oh my God)  
Lookin' at you shinin' just like a star  
You so beautiful  
Girl you stole my heart  
Now I know what I should do  
You know I don't like to lose

I used to want these girls  
Now all I want is you  
I don't see no one else  
Closer than my view  
Can't help myself  
Let's go to my room  
You can feel my love  
Girl it's all for you

This kind of thing just drives me crazy  
Ain't nothin' make me feel like  
When I'm with you (with you, with you) oh yeah  
When I'm with you (with you, with you) ooh yeah

Yeah...  
Yeah...  
When I'm with you

I used to want these girls  
Now all I want is you  
I don't see no one else  
Closer than my view

Can't help myself  
Let's go to my room  
You can feel my love  
Girl it's all for you

This kind of thing just drives me crazy  
Ain't nothin' make me feel like  
When I'm with you (with you, with you) oh yeah  
When I'm with you (with you, with you)
