

## Again

Glitterer

Caught sleeping sideways in the dark  
Thought you would wake me  
But I slept through the alarm  
And I woke up feeling wrong  
I'm lonely lately  
Again  
Again

What's the word for when you realize  
Time has passed? It's morning now  
But the day, it won't last  
And I can't help what time it is  
I'm out of luck  
But everything is now because It once was  
And I can't help what time it is  
I'm out of luck  
But everything is now because It once was

This morning doesn't have to end  
If we just wait it will start over again
