Glokk40Spaz

Nigga ain't scared, stomp him in his temple  
Pop him in his flank nigga that's on them  
We do the same thing live and die again  
Nigga this my whoa, we don't do no friends  
Pull out the big 50 then we take his head  
Stop tryna run off you got one more chance  
I had the Ak when you took that dance  
These niggas keep asking if I'd rob again  
Only end one way dead man  
And we let that gunplay, amen  
Police got me fucked up ain't take no deals  
Nigga better flip sum before we can  
I be with some vamps Nigga fuck your camp  
You play with them whoas we breaking your hat  
We fuck different hoes we do it like that  
He walk out the store then he know he get jacked  
It's a wonder with us them boys hit the hazmat  
Need Juju don't wanna go back, I need you always got my back  
In the tombstone playing with the Max

I already asked God forgive me for my sins  
Shot at that boy nigga in front that gym  
Grim reaper tat on him but that boy not Brim

On my mama she bussing boy that ho do dicks  
Baby we can fuck or we can just chill  
I'm high off these xans tell me how you feel  
I do what I can but I want a Mil  
He told me keep riding we bust at his heel  
She asked me to text her back I probably will  
Bust at his eardrum Mike-Will

She blowing up my phone but I'm not near

Can't do no drill with him he might tell

Think he a angel he can go to hell  
In the creek riding round with lil Demon Kel  
He can't come around he ain't shoot his shell  
Shoot his block up like up warfare  
Wet a nigga up we don't play fair  
I had the stick in the woods like a damn bear  
Stuck in between hoods when they locked that jail
