

# Only Together

Gloria Estefan

Come right this way, the party's starting any minute now  
We welcome anyone that leaves their sadness behind  
The ticket in is your heart  
With brotherhood in your hands  
Only together can we share in this adventure

Come right this way, this spacious home belongs to everyone  
Let's tidy up the room so we can all celebrate  
Facing the future as one  
Seeing how far we have come  
Only together can we make a brave new world  
Only together can we make a brave new world

With an open mind you will fit in  
And you'll be shining like the sun

Our souls illuminating the universe  
And filling with our light the break of day  
Let's dedicate this samba to life and love  
While dancing to the beat of different drums

We're not gonna stop our stride  
Until we've reached the end of the road  
No one can ever erase our faith in every footstep  
Come with us, we're stronger together and now is the time  
And no one can tell us just how far to climb

Eh-oh eh-oh eh-ow  
The party's getting started all around  
Eh-oh eh-oh eh-ow  
No one is gonna silence this sound

Come right this way, the party's starting any minute now  
We welcome anyone that leaves their sadness behind  
The ticket in is your heart  
With brotherhood in your hands  
Only together can we share in this adventure

Come right this way, this spacious home belongs to everyone  
Let's tidy up the room so we can all celebrate  
Facing the future as one  
Seeing how far we have come  
Only together can we make a brave new world  
Only together can we make a brave new world

With an open mind you will fit in  
And you'll be shining like the sun

Our souls illuminating the universe  
And filling with our light the break of day  
Let's dedicate this samba to life and love  
While dancing to the beat of different drums

We're not gonna stop our stride  
Until we've reached the end of the road  
No one can ever erase our faith in every footstep  
Come with us, we're stronger together and now is the time

And no one can tell us just how far to climb

Eh-oh eh-oh eh-ow

The party's getting started all around

Eh-oh eh-oh eh-ow

No one is gonna silence this sound

No way

Eh-oh eh-oh eh-ow

The party's getting started all around

Eh-oh eh-oh eh-ow

No one is gonna silence this sound
