

Reach

Gloria Estefan

Es **Es/C#** **Cmi** **Fmi** **B**

Some dreams live on in time forever

Es **Es/C#**

Those dreams, you want with all

As **Asmi**

Your heart

Cmi **Fmi**

And I'll do whatever it takes

Cmi **Fmi**

Follow through with the promise I made

F#

Put it all on the line

B

What I hoped for at last would be mine

Es **B**

If I could reach, higher

Fmi

Just for one moment touch the sky

As

From that one moment

In my life

I'm gonna be stronger

Know that I've tried my

Very best

I'd put my spirit to the test

B

If I could reach

Some days are meant to be

Remembered

Those days we rise above

The stars

So I'll go the distance

This time

Seeing more the higher I climb

That the more I believe

All the more that this

Dream will be mine

If I could reach, higher

Just for one moment touch

The sky

That one moment in

My life

I'm gonna be stronger

Knowing that I've tried my

Very best

I'd put my spirit to the test

If I could reach

F **C**

If I could reach, higher

Gmi

Just for one moment touch

The sky

B

From that one moment in
My life
I'm gonna be stronger
I'm gonna be so much stronger
Yes I am
I put my spirit to the test

If I could reach,
If I could, if I could
If I could reach
Reach, I'd reach, I'd reach
I'd reach, I'd reach so
Much higher

Be stronger
