

## So Good

Gloria Estefan

Just look the other way, I know  
If I could resist I would  
Be smart and just walk out the door  
Or at least I know I should  
The minute that you touched my hand  
I knew without a doubt  
That you would have the upper hand  
But that's what life's about  
And it feels so good  
You make me feel so good

Can't wait to get you all alone  
To see what lies ahead  
I'll leave behind my comfort zone  
And kiss your lips instead  
I wanna feel how warm it gets  
When your body's close to mine  
I wanted it the day we met  
And you wouldn't leave my mind

That it would feel so good  
You make me feel so good

You can try to analyze it  
Or just accept how you feel  
Pinch yourself, look in the mirror  
Baby this is real  
You should feel so lucky that you're  
Only one of a few  
That makes me forget everyone else  
And wanna be with you

You make me feel so good
