

# The Day You Say You Love Me

Gloria Estefan

Tender sighs like a whisper  
Caressing my day dreams  
You're here by my side  
I feel life smile upon me  
Whenever your sweet eyes  
Can look into mine

And it's my consolation  
The sound of your laughter  
Like music sublime  
There's no way of concealing  
Every thought, every feeling

The day you say you love me  
The most beautiful of roses  
Will bloom in every garden  
Of a color never seen

And from the highest steeple  
The bells will sing our love song  
And make the eager fountain  
Spill over with our love

The night you say you love me  
The skies above will listen  
The jealous stars will longing  
Will see us passing by

A playful ray of moonlight  
Will dance along of pleasure  
While witnessing this moment of our lives  
We will always treasure

A playful ray of moonlight  
Will dance along of pleasure  
While witnessing this moment of our lives  
We will always treasure
