

Ain't Runnin' Outta Summer

Gloriana

She never had a lot of love but the summertime love
Summer flames never turned into anything much
We met on an August night at a lake house of a buddy of mind
The first kiss didn't miss but it wasn't enough
And I said

Yeah, the days are still long
The water's still warm, baby
There's still something in the air tonight

Got a whole lot of time left
There's still so many sunsets
To make a night that we won't forget, baby
Ain't runnin' outta summer yet
There's still chances to take
And night swimming in a lake
We'll all asleep on the back deck, baby
We ain't runnin' outta summer yet
Yeah, let's make a night that we'll never forget, baby
We can still find love
We ain't runnin' outta summer yet

I can't believe that the summertime's almost gone
And boys seem a little bit sweeter in the summertime sun
Lake house of a friend of a friend
I wasn't tryna fall in love again
But the first kiss didn't miss and it wasn't enough

And he said

Yeah, the days are still long
The water's still warm, baby
There's still something in the air tonight

Got a whole lot of time left
There's still so many sunsets
To make a night that we won't forget, baby
Ain't runnin' outta summer yet
There's still chances to take
And night swimming in a lake
We'll all asleep on the back deck, baby
We ain't runnin' outta summer yet
Yeah, let's make a night that we'll never forget, baby
We can still find love
We ain't runnin' outta summer yet

Got a whole lot of time left
There's still so many sunsets
To make a night that we won't forget, baby
Ain't runnin' outta summer yet
There's still chances to take
And night swimming in a lake
We'll all asleep on the back deck, baby
We ain't runnin' outta summer yet
Yeah, let's make a night that we'll never forget, baby
We can still find love
We ain't runnin' outta summer yet
