## **Change Your Mind**

Girl don't say a thing Lie here next to me Underneath the moonlight I know it's getting late Let the music play It's okay to stay the night

How about we give this One more try Come on and let me hold you Come on you know you want to One more chance to finally Get this right I know you think it's over Give me a chance to Change your mind

Ain't been easy Never will be It was good And still could be I want to touch your skin (touch my skin) Feel your face again I still believe in you and me, yeah

How about we give this One more try So come on and let me hold you Come on you know you want to One more chance to finally Get this right I know you think it's over Give me a chance to Change your mind

## Baby please

How about we give this One more try One more chance to finally Get this right I know you think it's over Give me a chance to Change your mind

Baby please I still believe in you and me Gloriana
