

Evil Oath

Gloryful

Chained down by the curse
Banned for a thousand years
Bearing all those miseries
With a fate that no one hears
Stigmatized with a sign
Damned by the winged god
Master of evil, deceiver of my soul

He burns ... he burns
My soul ... my soul
My mind ... my mind
God, break the arc!
Release me from this pain...Evil oath

Try to breath, all in vain
Desperation to inhale
Rage is a doorway
And hate becomes a pale
Mercy - for a lost soul
Master of evil, deceiver of my soul

Antic of eternal hate
Banned and spelled, until the end
This Bastille of loneliness
In an endless strife, torment for life

Spread the fright - spread the fear
Queen of the plague - already here
Hunger - of a lost soul
Master of evil, deceiver of my soul
