

True 'Til Death

Gloryful

Can you hear my call
Across the sands of time
United are our forces
To face the enemy line

Oh oh oh oh oh
True til death
United, standing side by side
Oh oh oh oh oh
True til death
Forever sworn to fight

You can always count on me
True til death
Sworn to respect and loyalty
True til death
I got your back and you got mine
True til death
Til the end of fucking time
True til death
Til the fucking end of time

The flame of resistance
A light in the dark, burning the night
A firestorm of rage and fury
We fight for justice
We fight for our right
