

# Fly Away

Gloryhammer

I wanna fly away on a unicorn  
To a land of freedom and light  
But I know that my destiny  
Is to die in the ultimate fight  
I wanna fly away cross the galaxy  
To discover the force that's inside of me  
I wanna fly away

I have discovered there's a world beyond Dundee  
A vast eternal sea of stars  
I've crossed the wastelands from the mountains to the sea  
My quest is neverending

I wanna fly away on a unicorn  
To a land of freedom and light  
But I know that my destiny  
Is to die in the ultimate fight  
I wanna fly away cross the galaxy  
To discover the force that's inside of me  
I wanna fly away

The crystal citadel of Cowdenbeath is mine  
This astral hammer holds the key  
(Fragments of a fallen star)  
For countless centuries we've walked the cosmic line  
It's time to break the prophecy  
(Anstruther's dark prophecy)  
By the power of this amulet I wield  
(This amulet I wield)  
I'll cross the threshold to a universe of steel

I wanna fly away on a unicorn  
To a land of freedom and light  
But I know that my destiny  
Is to die in the ultimate fight  
I wanna fly away cross the galaxy  
To discover the force that's inside of me  
I wanna fly away

On a quest that is calling me  
To the other side of the galaxy  
I know I'll find my destiny  
In outer space in 1993  
Yeah!

I wanna fly away on a unicorn  
To a land of freedom and light  
But I know that my destiny  
Is the... Kingdom of Fife  
I wanna fly away cross the galaxy  
To discover the force that's inside of me  
I wanna fly away  
I wanna fly away  
I wanna fly away  
Oh yeah  
I wanna fly away
