

# **Victorious Eagle Warfare**

**Gloryhammer**

There was a time when legends of Crail ran true  
All over, their majesty everyone knew  
But now in the future, defeated by evil untold  
We yearn for the knight from story of old

A hero cannot be defeated  
Simply by making him die  
Proletius will rise  
A hologram hero will fight

Victorious eagle warfare  
So glorious, riding high up in the sky  
Victorious eagle warfare  
Brave warriors questing hard until they die  
With nothing above but the heavens above  
Guiding us on through the war  
Eagle force

Inside the chamber of cryogenetical fire  
A magical wizard is doing a spell  
Powered by robots, a hologram coming to life  
To stand at the side of the king of Fife

The galaxy knights are rising  
Reborn from the ashes of Crail  
A force for the light  
To whom we eternally hail

Victorious eagle warfare  
So glorious, riding high up in the sky  
Victorious eagle warfare  
Brave warriors questing hard until they die  
With nothing above but the heavens above  
Guiding us on through the war  
Eagle force

Mighty warriors of the galaxy  
You have proven yourselves to be mighty indeed  
Now, who of you will join me in my Space Knights of Crail?

Victorious eagle warfare  
So glorious, riding high up in the sky  
Victorious eagle warfare  
Brave warriors questing hard until they die  
With nothing above but the heavens above  
Fight against power of evil corrupt  
Guiding us on through the war  
Eagle force
