

Belong

Gnash

Been misunderstood
Never had my voice heard
I was alone when I was a child
But circumstances grow me
Now people wanna say they know me
Wish I had known when I was a child
I've always been a kid tryna find where I belong
Oh, oh, oh, oh, oh, oh
Ladies and gentlemen, gnash

Honestly, I feel like everybody's feeling kind of lost
And everybody knows it but nobody takes the time to talk
Don't you know that you could be the light in somebody else's life
All you gotta do is smile and say hi more than goodbye
We could come together, we could find some common ground to walk
I never really fit in with the popular ones
And even all my friends were always sorta dodgin' me somethin'
I mean I started workin' early, didn't party too much
But they all went straight from hatin' me to showin' me love
So I go for more than one then I'm prepared
To feelin' like nobody's even there
Climbin' up the stairs, they wanna stare
I never really thought that you would care
But now that I've got your attention
I think it's time that I mention
That we need to drop this tension
And start to find our connections
'Cause if love is where I stay
I know I will find my way

Because I've always been a kid tryna find where I belong
Oh, oh, oh, oh, oh, oh

It won't be long 'til we belong
It won't be long 'til we belong (ooh yeah, ooh yeah)
It won't be long 'til we belong
It won't be long 'til we belong (ooh yeah, ooh yeah)

We're just a bunch of kids tryna find where we belong
Oh, oh, oh, oh, oh, oh
Where we belong
Oh, oh, oh, oh, oh, oh
Where we belong
Oh, oh, oh, oh, oh, oh
Where we belong
