

# Outside

Gnash

Did you see the thing on the news  
About the thing that went bad?  
A lotta people confused  
A lotta people were sad  
A couple people were mad  
And they were turnin' their backs  
I didn't know what to think  
So I called up my dad, and said

It's scary to go outside  
It's scary to take a drive  
It's scary to be alive  
But it's also scary to die  
Scary to be alone  
It's scary to sit at home  
It's scary 'cause I don't know  
What's scaring me the most

But wait  
What were we talkin' about?  
I got carried away  
With my worries and doubts  
Hey  
Why don't we turn it around?  
Spend the rest of the day  
With our heads in the clouds  
For a while now  
It's getting harder to smile now  
I didn't even notice

It's a beautiful day  
And the sky is so clear  
Swear it's never this warm out  
So late in the year  
Are the birds and the bees  
All feelin' our fear  
Do they know what we've done  
To their atmosphere?

It's scary to go outside  
It's scary to take a drive  
It's scary alone at night  
It's scary inside my mind  
It's scary to go to school  
It's scary to read the news  
It's scary to think of you  
I know you're scared too

But wait  
What were we talkin' about?  
I got carried away  
With my worries and doubts  
Hey  
Why don't we turn this around?  
Spend the rest of the day  
With our heads in the clouds  
For a while now

Why's it so hard to smile now?  
Let's take a walk and talk

About the sky and the sea  
And the people and trees  
And the things we believe  
And the love that we need  
And the things that we buy  
And the reasons we cry  
'Cause we're scared of this life  
But it's scary to die

Oh, wait  
What were we talkin' about?  
I got carried away  
With my worries and doubts  
Hey  
Why don't we turn this around?  
Find the beauty and pain  
In the ups and the downs  
And just smile now  
Man, I'd hate to be a child now  
They'll be scared for a while now
