Stargazing

Gnash

I'll make plans for us
I haven't met you yet
I'm just laying here, gazing into the future
And I can't wait for it

I was thinking
We can take a drive
We can take a ride
Get a little high
We can stay the night
On the hood of my car, dancing under the stars
Thinking 'bout who we are in the light of the dark
These constellations are confirmation
That my constant patience has been worth it's weight in gold
I can't wait until we're gone but until then we're

Stargazing
Stargazing
We're stargazing
Stargazing
At the same stars tonight

I'll make plans for us
I haven't met you yet
I'm just laying here, gazing into the future
And I can't wait for it
