

# That One Song

Gnash

Oh really  
Your parents are out of town?  
Well i'll be at your house in a few  
And i don't care if we just drive around  
As long as i'm next to you  
You're tellin me you know of a party  
And that it's gonna be gnarly  
But girl i'd rather watch netflix  
Cause all i wanna do  
Is be alone with you  
Cause i think you're the bestest, yeah

I don't care what everyone's doin'  
It's just me and you  
(I got no plans if you don't, babe  
I got no plans if you don't, babe)  
And when we're all alone  
Think of the things that we could do  
(I got no plans if you don't, babe  
I got no plans if you don't babe)

And I know you wanna stay long  
Cause they just put on your favorite Drake song  
And this party's poppin' but I got a better plan;  
We could fall in love  
I don't think that it'll take long  
I just wanna chill and sing along to that one song

Sing along to that one song (oh yeah)

And it goes like:  
She's in a Smiths tee underneath her flannel  
She could drink whatever but she loves Jack Daniels  
I wanna get out this party and go home and light some candles  
These people are too much for me to handle, yeah

You're sorta hipster, I grew up on punk rock  
And I know how to party when I be goin' I don't stop  
But tonight, girl I don't want no one else  
I want you all to myself  
So if you with it let's get it  
We could be gone in a minute  
Then light it up and we split it, aye  
This gon' be a night that you won't be forgettin'  
If you get caught we'll tell your dad  
You needed help with house sittin' aye

I don't care what everyone's doin'  
It's just me and you  
(I got no plans if you don't, babe  
I got no plans if you don't, babe)  
And when we're all alone  
Think of the things that we could do  
(i got no plans if you don't, babe  
I got no plans if you don't babe)

And i know you wanna stay long

Cause they just put on your favorite Drake song  
And this party's poppin' but i got a better plan;  
We could fall in love  
I don't think that it'll take long  
I just wanna chill and sing along to that one song

Sing along to that one song (oh yeah)

Sing along like:  
Everybody's got that one song (one song)  
Let me sing it to you all night long (night long)  
We be makin' love with the lights on (lights on)  
It don't matter baby if it's right wrong (right wrong yeah)

So if you leavin' with me  
Well then we rollin' in a minute  
Baby we gon' see! yeah  
Maybe we could kick it  
To some dylan or some del rey  
Order in some postmates  
That's when she say:

I don't care what everyone's doin'  
It's just me and you  
(I got no plans if you don't, babe  
I got no plans if you don't, babe)  
And when we're all alone  
Think of the things that we could do  
(i got no plans if you don't, babe  
I got no plans if you don't babe)

And i know you wanna stay long  
Cause they just put on your favorite Drake song  
And this party's poppin' but i got a better plan;  
We could fall in love  
I don't think that it'll take long  
I just wanna chill and sing along to that one song
