Time

Gnash

Alarm clock always going off
At the wrong time
It's kinda like me, after no sleep, speaking my mind
My head's still poundin'
But I'll be alright
Every hangover is a lesson to remember I'm alive

With eyes wide shut, I see
I just need to breathe

Time heals all
Time heals all
Sometimes we fall
But time heals all

Every mistake we make
Comes at a price
But getting upset doesn't ever make a left go right
My head's still pounding
But I'll be just fine
Every day spent losing isn't ruined, it's a blessing in disguis
e

With eyes wide shut, I see
I just need to-

Time heals all
Time heals all
Sometimes we fall
But time heals all

It's so easy to forget
Every moment is a gift
Every second we exist
You gotta remember

Every minute that we get
All we gotta do is live
We've got so much love to give
You gotta remember

Time heals all
Time heals all
Sometimes we fall
But time heals all
