

Flashlight

Go Back to the Zoo

It's getting darker I need somewhere
to sleep
seven hours seven minutes a week
look at the cool kids out on the corner
they're probably smoking marihuana
I never ever have time for that

when I catch you with my flashlight
I'm a gonna give you what you need

I've been searching
everyday of the week
I want some rest,
wanna swim in the sea
followed the trace
to the hospital border

all my friends think I've got paranoia
I never ever have time for that
