

It's Too Bad

Go Betty Go

Sometimes I don't think right
It's just my natural instinct,
when it all comes down to love
Locked doors were all that I came to (whoa)
Hoping that you'd give me the key (whoa)
All I saw was you running away from me

Expectations, Hesitations, Explanations in my world
Suffocations, Frustrations, Limitations in my world
It's never a good thing, worse than a bad day
And if you want me you can have me
All you have to do is ask me
It's never a good thing, worse than a bad day
And if you want me you can have me
All you have to do is ask me

I know I learned a lesson, but it wasn't all that easy
I just can't let you go (Can't let go)
Realize it's for the better, but you're still in my heart
Now and forever

Expectations, Hesitations, Explanations in my world
Suffocations, Frustrations, Limitations in my world
Expectations, Hesitations, Explanations in my world
Suffocations, Frustrations, Limitations in my world
It's never a good thing, worse than a bad day
If you want me you can have me
All you have to do is ask me
It's never a good thing, worse than a bad day
If you want me you can have me
All you have to do is ask me

Things were difficult at first,
I felt trapped and so alone
And now that your feelings have changed all I can say is too bad

It's never a good thing, worse than a bad day
And if you want me you can't have me
All you had to do was ask me
