

# Georgia

Go-Go

She is something to behold  
Elegant and bold  
She is electricity  
Running to my soul, oh

And I could easily lose my mind  
The way you kiss me will work each time  
Calling me to come back to bed  
Singing "Georgia On My Mind"

And I  
And I

Lips generous and warm  
You build me up like steps

Eyes innocent and wild  
Remind me what it's like, oh

And I could easily lose my mind  
The way you kiss me will work each time  
Pulling me back into the flames  
And I'm burning up again, I'm burning up

And I, I never understood what was at stake  
I never thought your love was worth its weight  
Well, now you've come and gone  
I've finally worked it out, I worked it out
