

No One Else

Go-Jo

Overseas out with your new friends
Mean while I'm in the States
Wide awake always overthinking
Will my love be replaced?
I know I can be a bit jealous
It's only because I care
You are the best part to my future
I'll do anything to keep you there

Maybe it's all in my head
I don't wanna hurt you again
I just want you all myself
No one else
Tell me it's all in my head
Promise me you'll never forget
Say you want me all to yourself
No one else

You say I've got nothing to be scared of
Why am I still afraid?
The fear of losing you is my biggest weakness
'Cause you're my great strength
Sorry if I seem a little selfish now
It's only because I care
You're the best part to my future
I'll do anything to keep you there

Maybe it's all in my head
I don't wanna hurt you again
I just want you all myself
No one else
Tell me it's all in my head
Promise me you'll never forget
Say you want me all to yourself
No one else
No one else
No one else
