

Let's Build a Boat

Go West

It's a big world
Getting smaller every day
Here comes a big cloud
To wipe the smile off your face
Walking on fire now
Got to keep cool somehow
I'm on a volcano now
It's a sign of the times

I want to go sailing
Let's build a boat
All systems are failing
Let's build a boat

It's a time-bomb
It's a gun against my head
I need a foxhole
Somewhere i can play dead

Going a.w.o.l.
Running off the rails
Cut my lifelines
Let me set my sails...

Looking at seconds now
Stopping that clock somehow
I'm on a volcano now
I've seen a sign of the times
