

Complicated

Goapele

He was the one who held her down
Was there when no one else was around
But baby, it's over with no ending
Sparks fly and sis said I'm defending
And now I'm met with should've-beens and could've-beens
All I ever wanted was a happy end
That's why my hands feel tied
When you ask

It's too complicated
Love is overrated
My heart lies sometimes
Feelings change their mind
It's too complicated
Love is overrated
Who says hearts don't lie?
Should we even try?

What if I leave it all behind?
Follow my heart and not my mind
Wish it was easy to give in
It's harder to let go of this lovin'
I promised myself I'd tell the truth
Said that this time I'll finally choose
I wanna build not break the home
Can't go

It's too complicated
Love is overrated
My heart lies sometimes
Feelings change their minds
It's too complicated
Love is overrated
Who says hearts don't lie?
Should we even try

Bridges were burnt
Burnt bridges and desires
My mind lost in a fire
All the lessons I learned
With love it's too late
Ship sailed away

It's too complicated
Love is overrated
My heart lies sometimes
Feelings change their minds
It's too complicated
Love is overrated
Who says hearts don't lie?
Should we even try?
