

Need You

Goapele

I don't have to tell you how to love me
It's reciprocated by your energy
Breaking down these walls, it's got me levitating
I don't wanna go from here

The way you hold me so closely
Your calm embrace contains my storm
I just can't hold back anymore
I really, really need ya
Really, really need ya

I need you, baby
I can't stop thinkin' 'bout you
I need you, baby
My world won't spin without you
I can't let go of you

I've been on a high lately
The way we intertwine is so amazing
It feels like your soul was made for mine
I'll cover your fires, you protect mine

The way you hold me so closely
Your calm embrace contains my storm
I can't ignore it any longer
My love for you is getting stronger (Stronger)
I really, really need ya
Really need ya, baby

I need you, baby (I need you, baby)
I can't stop thinkin' 'bout you
I need you, baby
My world won't spin without you
I can't let go of you
(Can't let go, no, I can't let go, oh)
I need you, baby (Oh)
I can't stop thinkin' 'bout you
(I need you, baby)
I need you, baby
My world won't spin without you
I can't let go of you
(I can't let go of you, I can't let go)
