

Ojai

Goapele

Another place different zone
Another night far from home
Still you're the one that I treasure, treasure

So we conversate on the phone
Yeah I'm easily insatiable
Boy you're making me wetter, wetter

6 months
Said we wouldn't last
Who knew we'd be more than that
Call it whatever
It just might last forever

I'm telling you that
Time stands still whenever
We spend time together
Together
It might last forever
Time stands still whenever
We spend time together
Make it last forever

Can't say your name without a smile
And when you're close
I can't hide
The spell that I'm under
Babe I'm starting to wonder

Can we keep this up
Will we measure up
Those moments of pleasure
Make it last forever

6 months
Said it wouldn't last
Who knew we'd be more than that
Just knew that what we had was real
And it was all in the atmosphere

I'm telling you that
Time stands still when ever
We spend time together
Together
Make it last forever
Time stand still whenever
We spend time together
Together
Make it last forever

I'm counting the days
The hours are long
When you're gone
I know what I'm gonna do
When I get back to you

You're worth the wait

When I'm lost in your arms
Can't turn back
I'm past the point
Point of no return

I'm telling you that
Time stand still whenever
We spend time together
Together
Just might last forever
Time stands still whenever
We spend time together
Together
Just might last forever
