Goapele

Greatest gift I ever had  
Is you in my world  
Straight through my heart like a gun  
I was nervous  
Full of wonder overdone  
You who let me heal  
Never ever, we are one  
We are one

As bright as the Sun, power  
Be who you are, free  
As bright as the Sun, power  
Just be who you are, free  
As bright as the Sun, power  
Be who you are, free  
As bright as the Sun, power  
Just be who you are, free

Sweetest feeling in my soul  
You're a sight of gold  
Never lose your wings unshorn  
As life unfolds  
Hold you near me when you're cold  
Keep you warm  
'Cause I wanna do right by you  
You've always done right by me

As bright as the Sun, power  
Be who you are, free  
As bright as the Sun, power  
Just be who you are, free  
As bright as the Sun, power  
Be who you are, free  
As bright as the Sun, power  
Just be who you are, free

This love's unconditional  
So wherever you are  
Just know this love's unconditional  
When you feel low  
This love's unconditional  
There's no limit to it  
This love's unconditional  
You are...

As bright as the Sun, power  
Be who you are, free  
As bright as the Sun, power  
Just be who you are, free  
As bright as the Sun, power  
Be who you are, free  
As bright as the Sun, power  
Just be who you are, free
