

Purple

Goapele

What you wanna do?
Call it dare or truth
'Cause you get the best of me
Every time you come around
Got me in a daze, oh
'Cause I'm lost inside your purple haze

Nothing else matters
No one I'd rather
One touch, my walls fall away
Don't know what happens
Just know that I wanna stay
Right here inside your purple haze

Feel just like a fool
For you I'd break the rules
The way my heart is opening
I'm wondering, do you feel it too?
It's more than just a phase, oh
'Cause I'm lost inside your purple haze

Nothing else matters
No one I'd rather
One touch, my walls fall away
Don't know what happens
Just know that I wanna stay
Right here inside your purple haze

Chemistry's strong, got my mind spinning (Spinning)
Tryna make sense of all these feelings (Feelings)
Just one look and I feel better (Better)
When I'm with you I'm in Heaven (Heaven)
Right here inside your purple haze

Right here inside your purple haze
Right here inside your purple haze
Right here inside your—, right here
Right here inside your purple haze, ooh yeah
Ooh yeah, yeah, yeah yeah
