

Too Much The Same

Goapele

Seeking a summertime love
Just kick it on the low
You know with a vibe and flow

But we didn't know
What the light of day would show
Or if it wasn't meant to grow

And how we'd feel within
What we complain or win
And why you keep a distance
We are emotions
I was afraid of what I was feelin'
Afraid that you would take my heart and go steal it
My pride my soul
Now I know, now I know

'Cuz we were too much the same
I didn't know who to blame
'Cuz I didn't wanna change
We were too much the same
I didn't know who to blame
'Cuz you weren't gonna change

Unfamiliar ways
Came down like rain
Things in myself I couldn't change

But if we coulda chilled then waited a while
But then may now
And shooting stars won't send us running
From each other, from ourselves

And when you got me open
You faked on me
Why'd you tell me that you love me
And then stray away

What you did that day
I promise I would never go waiting
For someone who would never change

'Cuz we were too much the same
I didn't know who to blame
'Cuz I didn't wanna change
We were too much the same
I didn't know who to blame
'Cuz you weren't gonna change

But you can't get something for nothing
So what was mine
Sifted through like lost time

And unclaimed sand in a desert wind
With half my heart I took you in
So I can let you go

'Cuz we were too much the same
I didn't know whoto blame
'Cuz I didn't wanna change
'Cuz we were too much the same
I didn't know who to blame
'Cuz I didn't wanna change

'Cuz we were too much the same
I didn't know who to blame
'Cuz I didn't wanna change
'Cuz we were too much the same
I didn't know who to blame
'Cuz I didn't wanna change
