

They Bite On You

Goat Girl

Haven't slept for weeks, I've been dazed
Haven't slept 'cause you're in my headspace
Haven't slept for weeks, I've been dazed
Haven't slept when you're in my headspace
Feel the burning on the skin
Feel the turning come from within
Feel the burning under the skin
Feel the turning come from within

On you, they bite on you
On you, they bite on you
On you, they bite on you
On you, they bite on you

Kind of always held a disdain
For the sounds, the voices that they made
Kind of always held a disdain
For the sounds, the voices that they made
All the shouts, all the grinding you down
Make you feel the worth's not allowed
All the shouts, all the grinding you down
Make you feel the worth's not allowed

On you, they bite on you
On you, they bite on you
On you, they bite on you
On you, they bite on you
On you, they bite on you
They bite on you
They bite on you
They bite on you
