

All we assembled at thy shrine  
Mother, darksome and divine  
Thine the scourge and thine the kiss  
Grant us power, grant us bliss  
As thou were named of old by men  
Artemis and Ceridwen  
Hells Dark Mistress, Heavens Queen  
Lady of the moonlight's gleam  
In a place so wild and lone  
We dance around the Sabbat stone  
Aphrodite, Arianhod  
Lover of the Horned God

Lore of the Witches Child we bear  
Of Diana and proud Lucifer  
In between Light and Dark we are  
We're Children of Aradia

Heart joined to heart and lip joined to lip  
Five are the points of true fellowship  
That will bring ecstasy on earth  
'Cause you're the Circle of Rebirth  
"My daughter I've sent you, Witch  
Child divine  
Whose fathers proud light was forbidden to shine  
The Rebel Angel's heirloom she bore  
A book bound in shadows, filled with ancient lore!"  
No more we shall know slavery  
Under some upstart deity  
The Witch Child taught us what we need  
For fighting of the Christian creed

Lore of the Witches Child we bear  
Of Diana and proud Lucifer  
In between Light and Dark we are  
We're Children of Aradia

Clad just by the sky we honour thee  
As token that we're really free  
For centuries we sang the rhymes  
There will be no more Burning Times!  
We're granted secrets, given spells  
To give the oppressors their own  
Hell  
Their rules we all shall overthrow  
No other Law but Love we know!

Lore of the Witches Child we bear  
Of Diana and proud Lucifer  
In between Light and Dark we are  
We're Children of Aradia

Heart joined to heart and lip joined to lip  
Five are the points of true fellowship  
That will bring ecstasy on earth  
'Cause you're the Circle of Rebirth  
Invoke thy groom, the Goat of Mendes

Renew our powers to defend us  
Join with thy children, grant thy boon  
As we are drawing down the moon  
So celebrate in greenwoods shade  
With staff and chalice, stone and blade  
Beneath the light of moon and star  
We're Children of Aradia!
