

Victory is the Lightning of Destruction

Goatwhore

Funeral bells sing in the barren distance
Beware the sound of advancing legions

Esteemed path of triumph left in this wake
Enforced collapse of kingdoms built on the same

Bloodshed rages towards another conflict
As the warmongers leave a mark of fear

I am the conqueror
King of war
Death obsessed
Overlord

Chaos is unchained upon the adversary
Another stroke of death swiftly takes existence

Avenge the past under the guidance of rage
Savage madness coursing in vengeful veins

I wait perched upon a throne of skulls
Devoting life to annihilate my foes

I am the reaper
Taker of lives
Born of betrayal
Driven by revenge

Terror unleashed
Dismantle enemies
Spineless sympathy
Burned to the ground

Disdain for the weak
Supremacy awaits
Violence emerges from ravaged memories

Crushed empires
Put to the torch
Cenotaphs raised
Immortalize war

Kingdoms scorched
Defeat declared
Wastelands of destruction immersed in blood

Sacrifice the last bastion to the gods of death
Damnation is praised
Welcome this final breath
