

i want to know thw place where you come from  
i like to see your face when i wake up i offer me  
just for yourself wrapped up for you and no one else  
and no one else could be appreciative be as appreciative of you  
r charm  
when you walk you take you time take the tiniest steps  
when i'm at your side if you feel you're left behind i'll slow  
down  
to your pace and we'll be like a tree and we'll grow on  
and if the world should end with fire  
and bombs i'd like to be there holding hands with you  
i'll view the end of the lands and no on else could steal a pie  
ce  
that big of my heart i want to be with you and we will be toget  
her  
i want to be with you and we will live forever
