

## Sleepy Head

Gob

painted murder on the wall footsteps coming down the hall to the window  
through the blinds tun away  
but i still hear the footsteps closing in again this time the plane  
is going down double over get ready i'm allergic  
to the light and the darkness brings me fright through the peephole  
house  
i saw the suicidal neighbours they turned the doorknob  
came in again someone sleeping in my bed closed my eyes  
and i had a dream inside a dream i woke so many times  
i don't know if i'm awake jam the forceps in my eyes keep them open  
through the night listen to grating voice the night speaks  
it says "hey" to morning "it's great to meet again."  
out of bed you sleephead"  
i had a dream inside a dream i woke so many times  
i don't know if i'm awake
