

Breeding Filth

God Complex

The fire rises
It buries everything
All your lies
All your hate
It severs the artery

Blood has filled the streets
A nurtured soil stained black
Blood has filled the streets
You are breeding fucking filth

Retaliation, leads to the blind creation
Of a world torn apart by violence
Amidst the ruins, within all this chaos
A small child cries out for his dead father

Shattered youth
Born and bred bound by chains
Breeding filth
Scum will rise to the surface

Blood has filled the streets
A nurtured soil stained black
Blood has filled the streets
You are breeding fucking filth

I've given up on the human race
I am misanthropy
