

## Forbidden Love

God Complex

I followed you home again last night  
Made sure you got there in one piece  
You were giving me the eyes again last night  
Why do you always have to tease?

I let myself into your house  
So I could watch you sleep  
I run my hands across your mouth  
This world was made for you and me

And I blame this on you  
Our forbidden love  
I blame this on you  
Our forbidden love
