The Altar

God Complex

Suffocation excites me
Ecstatic, feel the strain
Asphyxiation ignites me
Erotic, taste the pain

How far would you go for me?
Would you take it all the way?
Could you put me into the ground and walk away?

Push me under the surface
Drag me into the earth

Suffocation excites me
Ecstatic, feel the strain
Asphyxiation ignites me
Erotic, taste the pain

How far would you go for me?
Would you take it all the way?
Could you put me into the ground and walk away?

Push me under the surface
Drag me into the earth
Our souls washed in pleasure as our bodies take the stress
We worship at the altar of flesh
The altar of flesh
