Grey Forces

God Module

Did you fall so I would forget to
Catch you before the bones break through
Your pale skin to show me what's hidden within
Are you here even when I can't see
Your face in the mirror staring back at me
It's Some kind of holocaust we're living the lives that we've a lready lost

Strength
Light
Separation
Unification
Stand up before we fall Into the Murder of love
Strength

Light
Separation
Unification
Answer before you're called
To the Murder of love

We watch as the wolves feed
On everything we were and will ever be
Hiding everything inside our minds
Draw X's on both your eyes
All of our precautions fail
Never is forever as we eat our own tails
The knife is in your hand
There's no need to understand
