Second Coming

God Module

Watching the wreckage fall from where the stars shine
Seven angels call our kingdom come
Searching for patterns in the static of space
The black moon has eclipsed the sun
Our watchers say they have been here for a long time
Letting us believe that we were still in control
No more denial as their lights blur the skyline
Watching the heavens bleed down from below

And we will see them in the fires of the night sky
Turn you back as the trumpet sounds
No salvation left
No one's reason was right
Down on you knees tonight
Under the night sky

Nowhere to hide from the fires in the night sky
Voices in your head whisper "Come and see"
No salvation left
No one's reason is right
Under the night sky

Decades of lies told to keep us in-line
Just keep staring at your phone - stop looking outside
An obvious conspiracy - don't question anything you see
If you do then you're on their side
This is the consequence of our complacency
The lamb can't complain once the slaughter's complete
One last cry until the silence stays
And seven billion souls become meat for the beast
