

# Airforce One

Godley & Creme

Come in, come in, Air Force One Come in, come in, One Come in,  
come in, Air Force One

Come in, come in, One Come in, come in There's a bomb on board  
There's a bomb on board

All you people On that plane Take your last sip Of champagne Th  
en blow away All you people On that plane Where you gonna land

You can't land on Venus You can't land on Mars You can't in Tex  
as There's no breathable air

All the breathable air Has gone away G one away

All you people On that plane Where you gonna land

Flying through the night To save the world The wings of power t  
hunder Lonely are the brave On Air Force One And later after di  
nner They will close their eyes And watch the stars go out From  
Air Force One
