

# One And One Make Love

Godley & Creme

When you were a young man  
Did it ever seem to you  
That there was just a slightest chance  
That one and one were two  
One and one were two  
One and one were two

When you did your homework  
Did you ever disagree  
With the logic of the experts  
Couldn't one and one be three  
One and one make three  
One and one make three  
One and one make three

Lee-la-la  
Just to see their faces  
But deep inside they know  
That love replaces

Maths and all your numbers  
It can never be enough  
To take the place of one young girl  
And one young boy in love  
One and one make love  
One and one make love  
One and one make love

Lee-la-la  
Just to see their faces  
But deep inside they know  
That love replaces

Maths and all your numbers  
It can never be enough  
To take the place of one young girl  
And one young boy in love  
One and one make love  
One and one make love  
One and one make love
