

# Let's Go

Godsmack

When did I come undone  
Am I the only one  
How can I save it  
If I don't know what's wrong  
Where it began  
Is nobody home

And all the things that I wanna be  
Are broken and tired from making me bleed

Let's go  
So many miles behind me  
Let's go  
This road is winding down around my neck  
I'm played out in so many ways  
I paid all my dues so I'll be ok  
Let's go  
This road has finally drowned me

Just one more day  
Yeah, one more night  
All this time I've been gone  
I could've lived three lives  
If I could change it  
I'd only change one thing  
I'd recreate it  
And leave you out of everything  
Erase you from my memories

And all the things that I wanna be  
Are broken and tired from making me bleed

Let's go  
So many miles behind me  
Let's go  
This road is winding down around my neck  
I'm played out in so many ways  
I paid all my dues so I'll be ok  
Let's go  
This road has finally drowned me  
It's broken and not coming back

Let's go  
So many miles behind me  
Let's go  
This road is winding down around my neck  
I'm played out in so many ways  
I paid all my dues so I'll be ok  
Let's go  
This road has finally drowned me  
Yeah
