

Terra Incognita

Gojira

Searching deep inside, increase your world
In my soul you will go
By the flame you will be chosen
And see the movement inside

I increase consciousness, thrown into a swamp
In the silence respect
Your will and the earth
You will find my land

Frozen is the river
That's flowing in your mind
Deeper than the reason
The answers you will find

Leaving this plastic world
Consciousness below
Anger is where you fall
Increase your soul in your mind

Frozen is the river
That's flowing in your mind
Deeper than the reason
The answers you will find

Nothing comes nowhere
You are realizing the problems of my conscience
There is no compassion for you to waste
We are wishing my dawn

Lost are the humanity in the end of the lost times
All they say are the lies and the closing tide
Eyes of the dying world, they cannot turn the change
But they are so dark and lost
