It's you just for you  
You make me feel brand new girl  
Falling love with you is all I want to do  
Ain't nobody can stop me now

Whatever I do, you're so quiet, why won't you react?  
Can't you see me, who only looks at you?  
Suddenly, one day, I saw you as a woman  
And my heart was beating so fast

Are you afraid of getting hurt? Are you afraid that this is a joke?  
Are you doubting me because I changed?  
Hurry and follow me, don't worry, I'll be good to you  
Oh tell me tell me baby  
Na na na na na na

It's you, it's you, these aren't empty words  
It's you, it's you, this isn't a misunderstanding  
It's you, it's you, I won't say anything else, you can trust me  
It's you, it's you, don't hide  
It's you, it's you, don't avoid me  
Why are you worrying? You just need to stay there

Do I need to kiss you for you to go into action?  
You're ignoring me, as if I'm not even here  
If you like me, why can't you say you like me?  
Please open up your heart

Yeah, I know you find my feelings unfamiliar  
But now I know how to get to you, even quicker  
Don't stop, just stay right there  
I want to get closer to you, I just need a moment, yeah

The moon in the night sky shines on me like the sun  
The stars of my romance are you and me  
Real love true love  
I want to be with you, na na na na na na

It's you, it's you, these aren't empty words  
It's you, it's you, this isn't a misunderstanding  
It's you, it's you, I won't say anything else, you can trust me  
It's you, it's you, don't hide  
It's you, it's you, don't avoid me  
Why are you worrying? You just need to stay there

I'm not saying this lightly  
This isn't easy  
I keep thinking about it but it's only you, that's why  
The thing I want the most in the world is your heart  
So what should I do?

It's you, it's you, these aren't empty words  
It's you, it's you, this isn't a misunderstanding  
It's you, it's you, I won't say anything else, you can trust me  
It's you, it's you, don't hide  
It's you, it's you, don't avoid me  
Why are you worrying? You just need to stay there

Who cares? Hold my hand, you and I look good together  
Don't be shy, take courage  
Hurry and follow me, don't worry, I'll be good to you  
Oh tell me tell me baby  
Na na na na na na

It's you, it's you, these aren't empty words
