If there's a reason why you leave me
Then I like to hear it now
I'll simply bend my head
I won't cry out loud

I know all this time we spent together Was not so important to you You always knew, there would come a time That I would sing my blues

And now you're playing with me Like you're playing card I'm losing before you start You know every trick of every game You look right through my heart

Oh woman, oh woman, you make it mine Ah, ah, yeah, oh woman, oh woman Oh yeah, you will be right at my door Ah, ah, oh

You're from heaven, from hell, from heaven For ever I'm lost in your spell

Ooh and I would be a liar

If I'm telling you, that I don't give a damn

That you don't love me like I do

Oh babe, babe I'm begging you

I'm begging you down on my knees

Oh please stay some more time

I'd rather be dead than free

Alright you leave me all alone

I see the curtain fall

And while you softly close the door

It's your name I call

Oh woman, oh woman Oh woman, oh woman, here right at my door Yah, yah, yah, yeah, ah, ah

Oh you're from heaven, from hell, from heaven For ever I'm lost in your spell
