

Jennifer Save Me

Golden Smog

Jennifer save me, Jennifer save me
I'm sick of all the faces
Staring back as if to say
I know that you're half crazy
But I wish you would go all the way

I'm driving your friend's car
'cause I ain't got my own
And if I leave today, see you tomorrow
And if I leave today, see you tomorrow

It's time to face the music
But they never taught me how to dance
I'd give you everything I've got
If you'd only give me half the chance, yeah

I'm driving your friend's car
'cause I ain't got my own
And if I leave today, see you tomorrow
And if I leave today, see you tomorrow

Jennifer save me, Jennifer save me
Need not fight for sunlight
The ashes and the elms grow tall
Fences bent gunmetal sunlight
Wrapped from here to Montreal, yeah

I'm driving your friend's car
'cause I ain't got my own
And if I leave today, see you tomorrow
And if I leave today, see you tomorrow

Jennifer save me ...
