

Pecan Pie

Golden Smog

As I walk along and stumble
Trains rumble in my head
As I breeze along and grumble
Think about you instead

And a piece of pecan pie
And you that's all I want
Just a piece of pecan pie
And all I want is you

Sometimes I get so hungry
Think about pie all day
Just a little whipped cream
Honey, I'm on my way

With a piece of pecan pie
And you that's all I want
Just a piece of pecan pie
And all I want is you

Just a piece of pecan pie
And you that's all I want
Just a piece of pecan pie
And all I want is you

Now, don't you call me key lime
You are the apple of my eye
Don't you know I'll be fine
Whenever you're by my side

With a piece of pecan pie
And you that's all I want
Just a piece of pecan pie
And all I want is you
All I want is you
