

# Salutations

goldford

I cant figure out  
How I'm ever gonna do without  
Salutation's gonna do me right  
You made a mess of me,  
and so I finally need to set you free.  
Cuz life's not living if I cant be me

And we may change just like the weather  
We we're smooth like silk tough as leather

Don't beat up your heart, nothings guaranteed from the start  
Validation's gonna take some time  
It ain't what it seems  
A congregation of my broken dreams  
Salutation's gonna do me right

And we may change just like the weather  
We we're smooth like silk but broken together (or tough as leather)

Salutations, just have patience  
Time will wash this all away  
The things that broke us, they soon will save us  
We'll both be better off this way

Well it ain't easy moving on  
But when something goes wrong,  
something goes wrong  
and you can only go so far  
try to make up for mistakes  
that brought us back to where we are
